RAINFOREST AND WILDLIFE SPOTLIGHTING TOUR

Departs: 7 Days a week.

Pickup Times:

12.15pm Port Douglas

1.00pm Northern Beaches

1.30pm Cairns

3.00pm Lake Barrine

Highlights and Inclusions

- Head south of Cairns and view of a mob of Agile Wallaby's that live within the city limits
- Drive up one of the Australia's windiest roads, the scenic Gillies Range, on your way to the Atherton Tablelands
- Make your second stop at the Cathedral Fig Tree, an 800 year-old Strangler Fig with a giant root system.
- Enjoy afternoon tea at volcanic crater lake, Lake Barrine, before an afternoon walk through the rainforest to see two massive Bull Kauri Pine Trees
- Spot wildlife such as the Boyd's Forest Dragon, Musky Rat Kangaroo and rainforest birds and learn about the plants and vegetation
- Visit a platypus viewing area in Yungaburra where we have a 90% success rate of seeing platypus.
- Enjoy dinner at a country restaurant in Yungaburra. Coffee, tea or hot chocolate provided (other drinks also available at your own expense).

- After dark and armed with a flashlight for our spotlighting, we then head back to the rainforest where the huge Curtain Fig Tree plays host to various species of nocturnal wildlife like possums and tree kangaroos.
- On clear nights, the minimal light pollution also allows star spotters to enjoy taking in the Southern Cross and Milky Way
- Return to your accommodation in Lake Barrine (9.00pm) or your accommodation in Cairns (10.00pm), Northern Beaches (10.45pm) and Port Douglas (11.30pm).

Additional Extras

Transfers from Port Douglas are an additional \$100 per booking

Additional information important for agents

- Tour runs 7 days a week with a minimum of 2 pax
- Tours do not run on the 24th, 25th, 26th, 31st December and 1st January.
- Great day of arrival tour also the day after a dive trip
- Low level of fitness required.
- Great for families and children.

Product Description

50 Words

Nocturnal Wildlife tour

Join this interesting and informative wildlife tour to see rare and unusual Australian wildlife by both day and night. Departing Cairns around 1.30pm, you will be taken on a journey of discovery in to the world's oldest tropical rainforest where you will get the chance to see platypus, possum and tree kangaroo.

100 Words

Nocturnal Wildlife tour

Join this informative wildlife tour to see rare Australian wildlife by both day and night. Departing Cairns around 1.30pm, you will be taken on a journey of discovery into the world's oldest tropical rainforest.

During the daylight hours your guide will lead you to find platypus, wallaby, musky rat kangaroo and Boyd's forest dragons. After dinner guests walk under the night stars and into the rainforest looking for Lumholtz's tree-kangaroo, northern leaf-tailed gecko, ringtail possums, gliders, frogs, owls and more.

The rainforest comes alive at night and guests will see dozens of animals when they venture out in the dark!
